

**Dr. Oliver Hofstetter****Associate Professor**

Department of Chemistry and Biochemistry

**January 29, 2015**

Northern Illinois University

DeKalb, IL 60115

Phone: (815) 753 6898

e-mail: ohofst@niu.edu

**Education**

January 1999

Dr. rer. nat., Major: Organic Chemistry

University of Tübingen, Germany

Dissertation title: "Stereoselective Antibodies to Amino Acids"

April 1995

Diploma in Biochemistry

University of Tübingen, Germany

Thesis title: "Stereoselective Interactions of Chiral Compounds with Bovine Serum Albumin and Antibodies"

**Honors and Awards**

2001 Research Innovation Award, Research Corporation

1999 The Sir Charles Clore Postdoctoral Fellowship

1999 Hoffmann-La Roche Young Investigators Award "Affinity 99"

1995 Boehringer-Ingelheim Fonds Short-term Fellowship

Professional Experience

August 2006 to present

Associate Professor of Biological Chemistry at the Department of Chemistry and Biochemistry at Northern Illinois University, DeKalb, IL. Teaching of graduate and undergraduate courses in general chemistry and biochemistry. Research in the field of analytical biochemistry and immunochemistry. Supervision of graduate and undergraduate research students.

October 2008 to December 2008

Visiting Professor, Technical University Berlin, Institute of Chemistry, Division of Technical Chemistry; Berlin, Germany.

August 2000 to August 2006

Assistant Professor of Biological Chemistry at the Department of Chemistry and Biochemistry at Northern Illinois University, DeKalb, IL.

January 1999 to July 2000

Postdoctoral fellow with Meir Wilchek at the Weizmann Institute of Science, Rehovot, Israel. Research in the field of immunoaffinity chromatography. Purification, fragmentation, and derivatization of antibodies; chemical activation and derivatization of support materials; development of immunoassays for the determination of enantiopurity.

May 1995 to January 1999

Research and Teaching Assistant with Volker Schurig, University of Tübingen, Germany. Development of analytical techniques for the determination of antibody stereoselectivity.

September 1997 to December 1998, November/December 1996, and October 1995 to February 1996

Visiting scientist with Meir Wilchek at the Weizmann Institute of Science, and with Bernard S. Green at the Hebrew University of Jerusalem, Israel. Design and synthesis of immunogens;

production and characterization of monoclonal and polyclonal antibodies; development of a chiral immunosensor using surface plasmon resonance detection.

#### Membership in Professional Organizations

Sigma Xi - the Scientific Research Society (member since 2002)

American Chemical Society (2000)

International Society for Molecular Recognition (1999)

Gesellschaft Deutscher Chemiker - German Chemical Society (1994)

#### Publications
