*Students should purchase the sixth edition of the Chemersinsky casebook. As noted below, we've arranged for a meaningful discount for this text. Note that you will be using this same casebook for Con Law II in the fall. Although there are many copies of earlier editions floating around, they are out of date and their resale value approaches zero. The new edition includes access to online "Case Connect" materials, including practice quizzes and other bells and whistles. You may purchase the new edition in whatever format you like (e-book, looseleaf, etc.). Some of those options are less expensive than others. IMPORTANT: If you order the casebook directly from the publisher Wolters Kluwer between December 10 and 25, you will receive a 15% discount. In addition, if you plan to purchase the Chemersinsky treatise (which I highly recommend but do not require), you may purchase the casebook and the treatise as a bundle at the publisher's website during that time period for an additional 20% discount.
